#### INTRODUCTION TO WICKS OF WISDOM

Congratulations! You have before you a set of Wicks of Wisdom power candles.

Whether it is love, money, luck or health and wellness you wish to improve, all you have to do is follow the instructions as described a little later in this booklet. Then be prepared to welcome good fortune back into your life!

Hello, my name is Dr. Linda Salvin. I am a spiritual psychic, healer and medium. I am also a metaphysician, educator, entertainer and former healthcare professional. After more than two decades on radio, I still offer my candle sets to you via the internet and by phone. Many people throughout America and the world have already experienced the miracles that await you by properly burning Wicks of Wisdom. Now it's your turn.

Remember, these candles are both unique and powerful. Unlike ordinary candles, these have been designed specifically for the requirements of this kind of spiritual work. To obtain optimum results, please read and follow the directions exactly, as well as the safety rules and precautions I mention. Caution and common sense is of utmost importance. I want you to experience all of the extraordinary power and success Wicks of Wisdom can bring to your life.

Because of their power, my one request is that you use your Wicks of Wisdom for positive good. These candles can enhance your life in unimaginable ways, but an open heart and patience are both extremely important.

They say, "Rome wasn't built in a day." So, too, spiritual change may take time. While some people may begin to see results during the first week or so, others may require several days, weeks or even months. I have seen some people burn their first set of candles to obtain certain results followed by a second set that provided amazing results. The more you burn the greater your results can be. Each and every candle is as unique as you are and, as it burns, takes on a life of its own. We cannot force or control the will of the Universe. But we absolutely can help and encourage positive change and results.

Fully accomplishing your individual goal might necessitate burning a few or several sets. Once you've achieved that success however, I know you will rarely be without your Wicks of Wisdom. As they are extremely spiritual and can work for anyone – even the biggest skeptic – I am equally sure that you will want to share them with friends and family, too. Never forget that your good fortune is made even more secure when you share it with others. That's an immutable law of the Universe!

Wicks of Wisdom do not require you to burn them on a particular day of the week or when the moon is in a specific position. They are just waiting for you to bring their power to bear in your life. By sprinkling the herbal blend into the candle, pouring in my specially formulated essential oils, adding the powders and burning your personally written petition, you will become active in shifting the energies to change and improve everything around you.

In the following pages you will find a brief history of candle power, my background, why I created these wonderful Wicks of Wisdom, read a few documented testimonials and answers to frequently asked questions (FAQs). Especially as you hear the words of my clients who have preceded you down this path to success, I want you to think about sharing your results with me as well. Nothing gives me greater pleasure than posting on our website the stories of remarkable, life-altering change provided by Wicks of Wisdom.

#### HISTORY OF CANDLE POWER

While I introduced Wicks of Wisdom on radio in 1999, candle magic is as old as time. You, too, have undoubtedly already used candle power – though you may not know it.

What happens on your birthday? Chances are you have a cake with candles that represent the years of your life. Friends and loved ones encourage you to make a wish and blow out the candles. That tradition is centuries old and it is but a hint of what lies ahead for you with proper use of Wicks of Wisdom.

Candles, in one form or another, pre-date the world's religions. When man first discovered fire it was seen as a miracle that would light his home, cook his food, frighten away enemies and dispel the darkness. It still does. And because it was seen as a miracle, the ancients also used candles to honor their deities, send prayers to the heavens and seek blessings for their lives.

For thousands of years, burning candles and using essential oils, herbs and powders has been a vital and treasured part of spiritual and religious ceremonies around the globe. Candles and incense are used in Catholic churches to assist in prayer. Candles celebrate and honor the eight days of Hanukkah in the Jewish faith. Santeria, Wicca and Pagan rituals speak to their Saints, Gods and Goddesses and create magic with them. In an even simpler sense, we all use candles to illuminate our dinner table bringing light and welcoming guests to our homes.

Your Wicks of Wisdom are a very special type of Spiritual Candles from a formula handed down through the ages. They are lovingly handcrafted with a unique type of wax that burns clean to help the ritual. Each set has their assigned essential oils, herbs and powders to address a particular area of life's many issues. When used properly, these marvelous candles can release a power to help you overcome even the most seemingly hopeless or difficult situations. By combining the other ingredients and offering our petition to the universe, spiritual, physical and emotional change can occur in our lives. I hope you're ready, because now it's your turn to experience the Wicks of Wisdom, to enhance your life.

### HOW DR. LINDA SALVIN DISCOVERED WICKS OF WISDOM

On February 17, 1981, I was in a commercial airplane crash. I was a businesswoman returning from several meetings out of town. After that accident my life began to change in ways that I didn't understand and certainly never thought possible.

For the first time in my life, psychic and spiritual thoughts were crowding out my ability to function in a business setting. It seemed that all of my prior academic, scientific and professional background had left me unprepared for what was happening. I was entering a world I did not understand. And though extremely fearful at first, eventually I was able to embrace and accept my new fate and direction.

Spiritually, psychically, becoming God-conscious, metaphysical, learning about and helping people in new ways: all of my priorities had changed. So did my career path.

Eventually I was led to radio in 1994. I began as a nightly guest on a large FM rock station in Los Angeles. My own show came next and for over 18 years I spoke to people on radio from coast to coast, assisting them with their problems, teaching them spiritually and making predictions for their lives.

As a psychic and healer, it occurred to me that people wanted more than just answers for their future. They needed real help in overcoming obstacles to love, career, health, family and finances. And they wanted to directly participate in making their dreams come true.

I had tried other types of candle magic prior to learning this method. I met some talented and wonderful teachers who showed me their techniques with candles, some of which produced nice results. However, it was not what the level of success that I was seeking.

Then I met Michael. This incredible individual shared his family's generational secrets with me. Amazingly, I started seeing the most unbelievable changes. He also taught me the different effects that various candles and oils can have when properly combined. Michael's teaching and guidance pushed me to begin thinking that my radio audience could benefit and that I would be able to help them in a new, exciting way.

But the time was not yet right for me. Much work, trial and error lay ahead. I learned only too well that candles have a spiritual way in which they speak to us. But when the correct moment comes, the power is extraordinary. Little by little, I became my own spiritual alchemist. I began mixing the various oils, powders, colors and words until I achieved the dramatic results and answers I petitioned to occur. The Wicks of Wisdom you see before you are the culmination of those years of research, work and prayer.

On the night that I introduced the candles on my syndicated radio show I found myself describing them"...like a prescription for your soul." The response was more enthusiastic than I ever imagined. At the time, I had just three different sets. Within two weeks, the demand was overwhelming.

In less than a year, I developed 22 unique sets. Each is designed to help people with a specific need or desire. But all are sent with my love and gratitude. Let them bring light into your life and the rich abundance this candle power has to offer. You deserve it!

#### A FEW WORDS FROM WICKS OF WISDOM USERS

It doesn't matter your age, profession, social status, religion or sex. Wicks of Wisdom work if they're supposed to work for you. Your personal results will vary with each set of candles and your unique situation. Even so, I want to share a couple of brief letters I received from people just like you who have experienced the power of Wicks of Wisdom $^{\text{TM}}$ .

Dear Linda,

As you probably remember, I'm an attorney. Previously I had purchased the Good Luck Power<sup>TM</sup> candle set and had begun to feel a positive shift in events. I needed to bring new energy to build upon this and so I spoke with a wonderful woman in your office and asked her to please rush my order. I had

to travel in the near future and wanted to have the full time required (up to 7 days) to burn each candle in the set.

I received my candles 3 days later and I dressed them and began to burn one from each of the 3 sets that same evening. I had selected these particular sets to deal with difficulties in my finances and at my work. Good thing I did!

Just the day before the candles arrived in the mail, I had gotten a letter from my condo association demanding past due assessments in the amount of \$7200 or they would foreclose on my unit! Talk about timing. I was also besieged at work with an extremely difficult person who undermined and contradicted my authority at every turn. In fact, this was when I began my telephone relationship with you seeking help on how to survive this miserable negative environment that was my office. But instead of panicking, I just tried very hard to concentrate on the lovely flickering flames and the wonderful aroma. Somehow I knew that my candles were a positive change for good.

Six days later my supervisor announced that this contentious employee who had been making my life miserable was being transferred "temporarily" to another division. (Ah, ha – the candles are working). I knew with continued candle magic on my part, that "temporary" could be made permanent.

Next I had lunch with my father to discuss my dire financial situation. When he saw the demand letter for the first time, he really began to understand how serious it was. And despite being notoriously cheap and extremely secretive about his finances, he immediately set the wheels in motion to help. Once again, the candles were working.

Finally, I called the lawyers for my Association and asked how many days grace period they could give me over and above the five stated in the letter so that I could raise the money. I got another two weeks. By that date (and less than 3 weeks after delivery of my Wicks of Wisdom power candles), my father and I paid off the entire balance owing.

As of this writing, two mortgage companies have contacted me out of the blue to offer me refinancing. Can you believe this? Hallelujah!

Long live Wicks of Wisdom!

Love to Linda Salvin!

Sincerely,

Jennifer M. Smith, Attorney at Law Chicago, Illinois

#### Dear Linda,

My husband became ill in his mid 70s with hydrocephalus (water on the brain). He had surgery and was in intensive care. The prognosis was not good. I thought I was going to lose him.

My daughter knew about you and so we ordered the Health & Wellness Power candles. We kept them burning for several months. I know that the Wicks of Wisdom played a big part in his recovery and

survival at that time. I believe your candles helped my husband live an additional two years. How can I thank you for working miracles and all of your help?

YOUR CANDLE IS TO BURN 24 HOURS A DAY. YOU WANT TO BE VERY SAFE. IF YOU HAVE TO LEAVE OR DO NOT FEEL COMFORTABLE, OF COURSE, YOU CAN **SNUFF** OUT THE FLAME AND RE-LIGHT IT WITH YOUR LIGHTER TO CONTINUE THE WORK. KEEP THE CANDLE ON A PLATE TO CAPTURE ANY SPILLAGE OR IF THE GLASS CRACKS.

This will help to remove any obstacles and let the benefits of the other candle draw in money, love, health, or anything else you are petitioning for after removing the blocks and obstacles. Please email me: info@lindasalvin.com with any questions you may have.

\*\*\*Never burn more than one candle from each set at a time! Burn ONE candle at a time per set!\*\*\*

#### WRITING YOUR PETITION:

- 1) Turn paper so you have the 3 lines facing up.
- 2) Use your pencil to PRINT your or their (depending on who candle is for) FIRST & LAST NAME once on each of the 3 lines
- **3)** Turn paper CLOCK-WISE so you now see the FOUR LINES face up. WRITE and scribble all your hopes, wishes, needs, demands, and desires you have regarding this situation. Keep writing until the circle turns black with your statements. I use about 12 sentences over and over again.

#### **Example:**

**MONEY & SUCCESS POWER**: I need a new job, I have more money, I am getting the raise, my bank book is filling up with money, sales are multiplying and business is thriving, money flows and the financial problems are less, etc.

The key here is to be specific as to what you want/need for your finances, career, bank account, a new job opportunity is mine, etc....think it through then write it over and over and over on the parchment paper.

**GOOD LUCK POWER**: All blocks, obstacles and negativity are being removed from work, love life and personal life; all problems around my boss are being removed. All negativity, curses and bad luck around my marriage and relationship are gone, etc. The key with this set of candles is to focus on removing all blocks and obstacles in the various areas of your life so you can improve the situation, especially using other Wicks of Wisdom™.

**SOUL MATE POWER**: 1) Existing Relationships: PINK wax/RED oil: He/She is calling me, needs me, is committing to me; they are opening up to me, falling in love with me; is expressing their feelings, getting closer to me; want to participate in the same activities as me, etc. OR 2) Attract new relationship: THERE ARE NO POWDERS HERE: I am attracting a new man/woman for love, companionship, friendship, etc. They have blue eyes, are 6 feet tall, emotionally available, likes to dance, cook and travel; put your desires down for your ideal per-son and let the universe bring new people into your life! The key here is to write your needs and wishes about the person you are seeking.

**HEALTH & WELLNESS POWER**: my immune system is stronger, the lumps are going away, the pain is subsiding, the swelling is going down, my leg is healing from the surgery; the bad cells are shrink-ing. Before surgery you might say, something like the surgery is successful, I heal quickly, I am healthy again. etc.

As with ANY of the Wicks of Wisdom you burn them for yourself or someone else. If you put someone else's name on the petition, say statements such as *their* money improves, their negatives are going away, *he* is more open, she is happier, *her* health improves, their career expands, etc. REMEMBER who and what you are working on.

4) <u>BE SURE TO FILL THE PARCHMENT CIRCLE</u> Keep writing over and over so your writing blackens the paper and it is illegible. You will scribble your sentences over and over again, about 12 sentences. You will know when you are complete with the writing.

#### **LIGHT THE CANDLE & START THE RITUAL:**

- 1) Light the wick with a lighter. Do NOT use a match. YES a match will work but we try to eliminate the sulfur.
- 2) Fold the parchment paper in half. Hold it carefully so you DO NOT burn yourself! Place the parchment paper into the beautiful flame so it catches fire. It will burn quickly. To avoid hurting or burning yourself with the burning parchment paper use tweezers or tongs to hold the paper while you light it in the flame if you want.
- **3)** Drop the parchment into the candle solution. Use a **NON-FLAMMABLE** utensil such as spoon or knife to push the carbon, or ashes, into the solution and away from the wick. You want the ashes to mix into the dressing but do **NOT** want the herbs to catch FIRE.
- **4)** If you start a "bonfire", use the utensil to put out the fire so only the wick is burning or take a lid from a pot to put the fire out and start over .

#### **5.DO NOT BURN YOURSELF!**

6. Keep candle away from all flammable material such as curtains, table clothes, paper towels, shower curtains, bedding and other flammable items. *These are lit candle* please *use common sense*.

#### TRANSFER FLAME: ONE FLAME SHOULD BURN ALL THREE CANDLES!

- 1) When the candle is near the bottom of the vessel, take a stick or incense stick and capture the flame.
- 2) Transfer the flame to candle #2 and allow the other candle to burn out on its own. Be sure you have put the oils, herbs and powders in the next candle before you transfer the flame.
- 3) Repeat for candle #3. Each candle can take 3-7 days to burn. Some can burn out in 3 days, others in 5 days.
- 4) Once the candle goes out, let it cool and throw the glass away. You are complete with that candle.

#### REPEAT DRESSING:

- 1) Repeat the process of oils, herbs, powders and parchment for each candle. The adding of oils, herbs and powders is called DRESSING THE CANDLE.
- 2) You can dress them one at a time or all three at once. If you "dress" your candles in advance, please put tin foil around the top and tighten with a rubber band to prevent spillage. Keep in safe place until you are ready to light it.

#### **ANSWERS TO FREQUENTLY ASKED**

#### **QUESTIONS: PLEASE READ!!**

- 1) If the flame goes out...re-light the wick. If someone blows it out, re-light it.
- 2) No, re-lighting will not interfere with the ritual.

- **3)** If you have a "blazing fire", the oils, herbs and/or paper is on fire; pad it out with a non-flammable utensil so **only the wick is burning.** Or, take a cover to a pot and put it over the candle to extinguish the flame. Do not use water! Cover it with a lid to a pan from the kitchen. Just eliminate the oxygen. **PLEASE USE COMMON SENSE!**
- 4) Do not attempt to carry the candle. If you need to move the candle, snuff the flame and re-light it.

#### Do not burn yourself.

- **5) If** the candle continues to go out, whether or not you are done with that candle, go on to the next one. It means the candle work is complete for that specific candle. Throw away the candle, even if it still has wax in it. You are done with that petition and candle.
- **6) Don't** worry with what the candle does; some may crack, the flame may go out, the flame may jump around, sit still, get large, shrink, etc. It's all part of the 'work', nothing to worry about however it's fun and fascinating to watch.
- **6) Results** vary for everyone and with every ritual. Some events can happen almost immediately, some may take months and sometimes nothing happens at all...This is all in accordance with the Will of the Universe for you.
- **7) Do not** add any extra ingredients to the candle other then what was sent to you. We have provided you with the correct formula for your order.

#### BE PATIENT AND TRUST. GOOD LUCK.

I Wish You Wonderful Results with your Wicks of Wisdom.
